

Two innovative features in one design

# LiBero-ARC® nail

The **LiBero-ARC® nail** has an innovative curved and angled head shape for a controlled drive without the nail twisting in the fuller. It is specifically designed for LiBero® shoes, but very well in Equi-Librium® and Eventer®. The concept of **PITCH™** offers a small angle between nail head and the shank of the nail and aids nailing on the correct angle. This reduces possible pressure on the hoof wall. The longer slim and strong shank gives the option to nail higher.

The Mustad "M" is always stamped on the inside of the nailhead and is placed on the same side as the bevel, as a simple guide for the farrier.

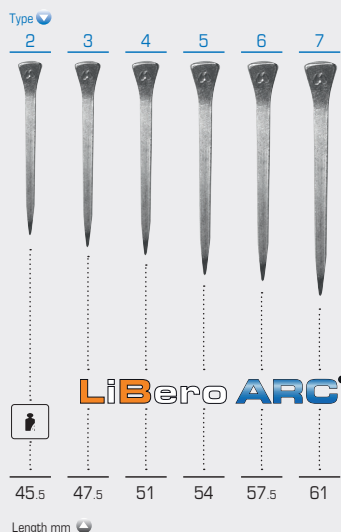

Precision, perfection and reliability are the definitive features of Mustad nails. Production of Mustad nails has a minimal tolerance, as quality is always our prime consideration.

PITCH™ in the head

ARC™ head design

For medium weight shoes

Stamped for U-cross

- Type Curved and angled head
- Model E nail origin
- Shoes V-fullered shoes: BaseMax, LiBero, DynaMic, Equi-Librium, Eventer
- Sizes LiBero-ARC2 (45.5mm) - LiBero-ARC7 (61mm)
