

City nail

The Mustad "M" is always stamped on the inside of the nailhead and is placed on the same side as the bevel, as a simple guide for the farrier.

The **City Head** is a traditional model from the USA. The head is designed for a perfect fit in U-fullered horseshoes. This all-purpose nail is distinguished by a robust nail shank that is slimmer than that of the REG model. This facilitates simple and safe nailing, with minimal displacement of the hoof wall. To promote correct and safe nailing, the nails have a raised edge on the inside to aid accurate positioning as before by touch.

Precision, perfection and reliability are the definitive features of Mustad nails. Production of Mustad nails has a minimal tolerance, as quality is always our prime consideration.

For medium weight shoes

Stamped for U-crease

Type flat head
 Model USA style
 Shoes U-creased shoes
 Sizes City4 (45mm) - City6 (54mm) / City5slim (50mm)
