

# DM Icelandic

The DM IS, a new addition to our successful DM range is specifically designed for Icelandic horses.  
With this addition the farrier has the best possible option when shoeing Icelandic horses that are competing, as the DM IS meets the FEIF requirements.

### Features additional to DM

- both front and hind just below 23mm wide from heel to toe
- meets FEIF regulation

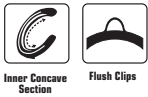

### Shoeing instruction

- when hot fitted, please make sure measurements of the shoe width are taken again just before shoeing!
