

Equi-Librium® Air

St.Croix Equi-Librium Air is one of the evolutions of our Equi-Librium concept: ultimate performance improvement, reduced limb loading and injuries prevention.

Design features

- both front and hind models
- newly designed front model, 15% lighter than the standard Equi-Librium
- distinctive Equi-Librium rolled toe, more pronounced in the hind model
- concave section through the toe providing extra grip
- additional width in the heels for optimal support
- side clips in the front shoe are positioned in the toe, for additional support while maintaining an optimal hoof mechanism

Recommended nails for this product
