

# FJ nail

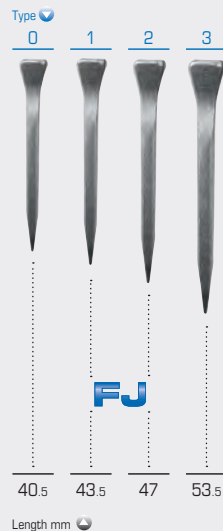

The Mustad "M" is always stamped on the inside of the nailhead and is placed on the same side as the bevel, as a simple guide for the farrier.

**FJ** is a modern nail with slender shank, short neck and low head. All the junctions in the nail are fluid in form. The nail is perfect for horseshoeing racing horses, among other things because it offers a perfect fit for thinner horseshoe designs. In addition to racers, trotters and wild horses can be reliably and safely shod using FJ nails.

Precision, perfection and reliability are the definitive features of Mustad nails. Production of Mustad nails has a minimal tolerance, as quality is always our prime consideration.

For light weight shoes

Stamped for V-cross
