

LiBero® Pony

LiBero® Pony is a shoe range especially designed for ponies. It is a part of the LiBero® family and consolidates our whole pony shoe offer. This range is based on the results of an in-depth study on pony hoof conformation focussing on hoof differences across various European pony breeds. The LiBero® Pony was developed with the support of an international team of experts and thorough extensive market testing.

Significant differences to LiBero®:

- sizes 2*0 to 4*0 have lighter sections and are punched for smaller nails
- the smaller the front shoe, the less round, the narrower and the straighter their shape
- the smaller the hind shoe, the higher up the widest point of the shoe and the more pointed the toe area
- sizes 5*0 to 7*0 have an even smaller punching for small pony feet

Recommended nails for this product

toe clip & quarter clips

toe clip & side clips
