

RIB nail

The **Road Nail** program is based on the standard nails E and E-slim. It has a carbide pin in the head to reduce wear.

The Mustad "M" is always stamped on the inside of the nailhead and is placed on the same side as the bevel, as a simple guide for the farrier.

Precision, perfection and reliability are the definitive features of Mustad nails. Production of Mustad nails has a minimal tolerance, as quality is always our prime consideration.

For medium weight shoes

Stamped for U-cross
