

VF F nail

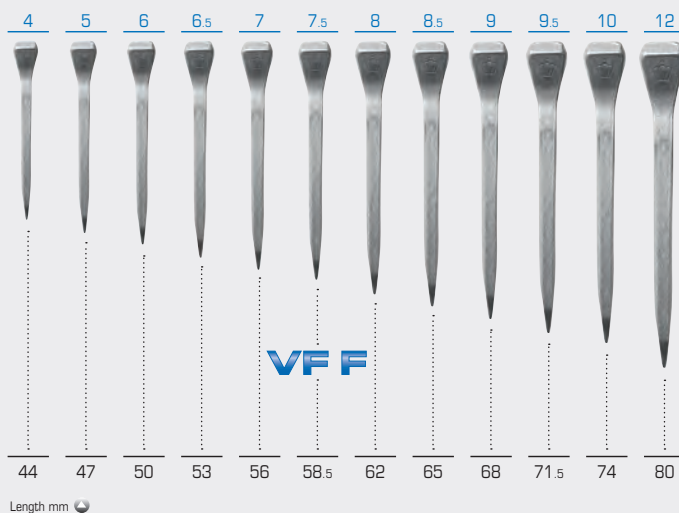

The Mustad "M" is always stamped on the inside of the nailhead and is placed on the same side as the bevel, as a simple guide for the farrier.

The VF F is a high-quality nail in the traditional French style with a short neck and a square head.

The nail is suited to a wide range of horseshoes and horses, because apart from other considerations this nail model is available in a wide range of sizes. The VF F is a reliable and robust nail suitable for horses that are used on varied terrains where high traction forces can act on the horseshoe.

Precision, perfection and reliability are the definitive features of Mustad nails. Production of Mustad nails has a minimal tolerance, as quality is always our prime consideration.
